

2033Agenda What can you begin to do, starting tomorrow?

Have you thought about it?

POPE FRANCIS

Let us celebrate together the Event

Of Jesus Christ

We are exactly 10 years away from the

second millennium of the death and

resurrection of

Jesus Christ.

It is the 2000th anniversary of an event that

changed the history of the world

and of each of us.

In these next 10 years **2033Agenda** invites all

Christians to:

- Put the **values of the Gospel** into practice by transforming our spiritual life. Values with which we must: fulfil and spread in every possible way so that after 2000 years we can truly celebrate the passion, death and resurrection of Christ as a sign of hope for all humanity.

- Respond to questions with concrete actions:

What have we done?

What are we doing?

Where have we sown the word?

With whom have we passed on our faith?

Who have we raised up with our hope?

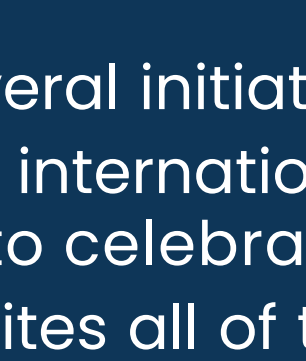

How much love and friendship have we

shared?

What acts of courage have we become

protagonists of, animated by the power of the

Holy Spirit?

2033Agenda is a tool with **three**
fundamental **goals**:

1

To Become aware of the time we are living in
this decade.

Do we hope for a better 2033 – as God
dreamed when he gave us so many gifts – we
must start doing concrete things today.

2

To Generate communion in our actions, share
gifts, charisms and inspirations, many of
which we glimpse in the *Synodal Way*: it is not
only a question of doing new things, missions,
or apostolates, but of doing them with a view
to 2033.

3

To Widen the tent To produce concrete
evangelizing actions for the whole world, to be
"the Church on the move" and a home for all
those who want to dwell in it from their heart.

The **2033Agenda** is a CHARIS
program with the support of the
**Dicastery for the Laity, Family and
Life**, and with the participation of
movements, international
associations and other
christian churches.

There are several initiatives around

the world, internationally and

locally, to celebrate 2033,

CHARIS invites all of them to be

part of **2033Agenda** to move

forward together.

CHARIS International **has activated** an
agenda where the various initiatives
around the world in the vision of 2033
will be published.

Promoting together with the various
pastoral ministries, associations and
Christian communities, events that will
rekindle the evangelizing ardor in view of
this great event.

Coordinating some joint actions, in unity

"...so that the world may believe"

(Jn. 17,21).

In addition, It will publish guidance on the
challenges of this program in the following
areas:

FAITH

- KERYGMA
- CULTURE OF PENTECOST
- DISCIPLESHIP
- MISSION

HOPE

- CHRISTIAN UNITY
- FORMATION
- NEW GENERATIONS
- VOCATION

CHARITY

- FRATERNITY
- FAMILY
- HUMAN PROMOTION
- CARE FOR CREATION

These challenges can be tackled locally, by

country or region and

institutions;

according to the needs of the place, involving

as much as possible movements,

associations, communities, pastoral care, the

authorities, social organizations etc.

And defining their priorities and pace to

achieve these goals by outlining

concrete steps.

It is appropriate to be accompanied by the

local Church.

CHARIS International Intercession Network is

already praying for this.
